

MCRMA MEMBERSHIP BENEFITS

Introduction

The Metal Cladding & Roofing Manufacturers Association (MCRMA) represents, promotes and supports the interests of system manufacturers, component suppliers, independent roofing and cladding inspectors and industry support services suppliers who provide products, systems and services within the non-domestic metal roof and wall market sector.

MCRMA membership is open only to those companies who operate and comply with the requirements of the MCRMA Membership Charter; a Charter which reflects and underpins the philosophy and principles of the leading manufacturers, component suppliers and industry consultants whose products and systems are associated with the construction of the building envelope.

As the voice for the industry, MCRMA works closely with a variety of industry bodies and Standards committees to develop building envelope solutions and to disseminate best practice, ensuring that its members operate to the highest standards at all times.

MCRMA members are regarded as the premier suppliers of goods and service to the non-domestic building envelope sector and are known for their ability to speak with authority, have a full and unequalled knowledge of their business sector and without doubt offer reliability to their customers.

If you share this philosophy then we would be delighted to hear from you!

The key benefits of membership are

- A comprehensive range of guidance documents for the use of specifiers and practitioners on topics connected with the use of construction products within the metal building envelope in the non-domestic sector.
- The Association holds scheduled technical conferences for member companies where pertinent and important industry topics are explored in depth with industry experts and professional organisations.
- Quarterly members' meetings to update members on key industry issues and an opportunity to discuss specific technical and industry matters.
- Speakers from industry on topics relevant to non-domestic construction and the issues associated with it for example, statistics, materials and coating technology, sustainability, specifications, legislation, regulation and general industry matters.

- Access to the Construction Products Association (CPA) technical team, industry statistics and members only web site.
- Whole industry statistics and trends issued to system manufacturer members on an annual basis. Ad hoc market reports are issued to all members.
- Individual technical focus groups concentrating on specific industry sectors for example, rainscreen, safety lines and sustainability.
- Direct input into British Standard, international drafting committees and other bodies covering, amongst others:
 - B/5427 Code of Practice for roof and wall covering
 - CEN TC 128 SC7
 - BS EN 14782 harmonised standard
 - BS EN 14509 harmonised standard
 - BS 5250 Code of practice for control of condensation in buildings
 - BR 443 Conventions for U value calculations 2006 Edition
 - HSG 333 Health and safety in roof work
- Representation on:
 - Member of the Construction Products Association (CPA) Trade Association Council and Technical committees
 - Member of the CPA Expert Panel which feeds into the Industry Response Group (formed following the Grenfell Tower fire).
 - Member of the Advisory Committee for Roofwork (ACR) committee

Services for members

- Modern interactive and regularly updated web site which features a free individual member's profile page with direct links to each member company's own web site.
- A wide range of guidance documents downloadable from the web site.
- Regular feature articles published in industry journals which are available to download from the web site.
- Projects and case studies from member companies published on the web site and highlighted in regular emailers to architects and specifiers.
- Weekly eNEWS to update members on topical member and industry news.
- Dedicated technical hot line for specifiers and contractors.
- Marketing to specifiers and architects.
