

## ACADEMY SCHOOL, COVENTRY BRETT MARTIN DAYLIGHT SYSTEMS

Eight Marvault rooflight systems were installed at President Kennedy Academy to admit natural daylight into corridors.

President Kennedy Academy is a co-educational secondary and sixth form school located in the Holbrooks area of Coventry. The Academy prides itself on its 'no barriers' approach to education in which it is committed to 'Building Brighter Futures' for its students.

This project formed part of a wider framework project in which Brett Martin Daylight Systems installed rooflights in seven educational facilities.

### Specification

System: Marvault

Sizes: Variable from 1460mm x 760mm up to 21630mm x 1560mm
