

13TH MAY 2016

MCRMA NEWS

UK ROOFING AWARDS 2016 AND THE WINNERS ARE ANNOUNCED!

Many congratulations to Metclad Contracts and KGM Roofing Limited who triumphed at the UK Roofing Awards today (Friday 13th May) in the Vertical Cladding and Roof Sheeting categories respectively in the two awards sponsored by MCRMA. The winners were announced at the Roofing Awards Lunch held at the Hilton London Metropole where the awards were presented by BBC broadcaster Steph McGovern.

Vertical Cladding Award

Friars Walk Shopping Centre, Newport, Gwent

The award-winning Vertical Cladding & Rainscreen project involved the total regeneration of an existing office block and multi-storey car park to create a new town centre shopping development including major chains as Debenhams, Next, Top Shop, River Island and H&M. In addition, the leisure facilities feature Cineworld and 11 family restaurants, including Nando's and Wagamama. The Friars Walk development has transformed the centre of Newport into the region's premier retail destination.

Roof Sheeting Award

Residential development, Marshgate Drive Hertfordshire

The winning project in the Roof Sheeting category required the installation of standing seam roofing to three blocks of flats at Marshgate Drive in Hertfordshire. The project involved high levels of skill in the design and installation of complex tapered, curved and vertical system installations of Kalzip standing seam system over three blocks of flats, with each block using the roof system in a different way. In addition to the installation of the main roofing system, KGM Roofing also undertook the design and installation of the very challenging recessed window and balcony surrounds.

Now in their 11th year, the UK Roofing Awards have become an established industry-wide competition that recognises and rewards outstanding standards of workmanship and safety within the roofing and cladding industry. The event attracts the key manufacturers, suppliers and contractors who service the industry.
