

**PRESS RELEASE MAY 2019**

**APL LAUNCH NEW 'APL SYSTEMS AND PRODUCT SELECTOR'**

‘Specialising in the Bespoke Details that make a building special’ this is the main message on the front cover of the new Systems and Product Selector from Architectural Profiles Limited.

It is a completely updated, fully illustrated, piece of technical literature listing APL’s portfolio of cladding products and construction systems for the complete building envelope including, and featuring, signature details and Bespoke cladding profiles.

Benefitting from comprehensive drawings and dimensions in every section, the Selector also presents APL’s patented construction systems such as ‘StrongBak’™ structural framing system; Tritherm™ spacer system; Slimwall™ rainscreen flat panel systems and Zipseam™ standing seam profiles.

The new literature is available for download via the APL website [www.archprof.co.uk](http://www.archprof.co.uk) or as hard copy from Architectural Profiles direct.
