

GD 06 CE MARKING OF CONSTRUCTION PRODUCTS

CE marking is a requirement for certain products traded in the European economic area. A CE mark on a building product is a declaration by the manufacturer that their product is compliant with the Construction Products Regulations (CPR) and the minimum requirements of EU countries. A CE mark shows that the product complies with all the relevant European legislation covering the product's health, safety or environmental requirements.

Not all products are required to be CE marked; but products which are covered by a harmonised European standard or a European Assessment Document (EAD), along with an associated European Technical Assessment (ETA), will have specific legislation that requires it.

The following products fall under the requirements of the CPR and may be included as part of a recognised system manufactured and supplied by a member company within the MCRMA.

- Profiled roofing and cladding BS EN 14782:2006
- Composite panels BS EN 14509:2013
- Sheeting fasteners EAD 330046-01-0602
- Composite panel fasteners EAD 330047-01-0602
- Spacer kit systems and halters EAD 200012-00-0401
- Safety lines PPE 89/686/EEC
- Insulation products BS EN 13162:2012 + A1:2015
- In plane rooflights BS EN 1013:2012 + A1:2014
- Barrel rooflights BS EN 14963:2006
- Dome rooflights BS EN 1873:2014 + A1:2016
- Structural frame BS EN 1090-1:2009 + A1:2011

All MCRMA members manufacture products to National and International standards and operate QA measures, such as BS EN ISO 9001, to ensure materials, processes and procedures are maintained to the highest standard.

Individual manufacturers within the MCRMA should be contacted directly for specific information about their products, systems and services.

Additional information about CE marking can be found at

<http://www.constructionproducts.org.uk/publications/industry-affairs/display/view/construction-products-regulation/>

and a full list of harmonised standards can be found in the official Journal of the European Union at

<http://ec.europa.eu/growth/single-market/european-standards/harmonised-standards/construction-products/>
