

SFS GROUP FASTENING TECHNOLOGY LIMITED

JULY 11TH 2019

SFS GROUP HOSTS TECHNICAL SEMINAR

Join SFS for their Technical Seminar – Metal Roofing & Cladding an Overview:

25th July 2019 • 10am • SFS Academy, 153 Kirkstall Road, Leeds, LS4 2AT

This is the first in a series of Technical Seminars exploring the design considerations and required performance of metal roofing and cladding systems used in the construction of roofs and walls of buildings in order to comply with regulations. Covering topics from the building process through to structural performance and weather tightness.

This is an exclusive opportunity to join and network with professionals from across the industry to discuss the performance and regulations of metal roofing and cladding, whilst enjoying a tea, coffee and a sandwich on SFS.

Numbers are limited, so please register for a free ticket here:

Background:

The SFS Academy is the hub that connects the many facets of the construction industry of today and tomorrow. It creates a space for professionals to network, learn and share ideas.

The SFS Academy in Leeds is the hub that brings together industry professionals to network, learn and share knowledge. By listening carefully to the industry, SFS continues to break new ground and push boundaries in developing new technologies and products.

One of the greatest challenges faced by the industry is recruiting and training the next generation of architects, engineers and installers. SFS has invested heavily into developing an Academy space in Leeds to create a hub for knowledge exchange and learning within the industry.
