

CENTRE:MK CAR PARK, MILTON KEYNES
SOTECH LIMITED

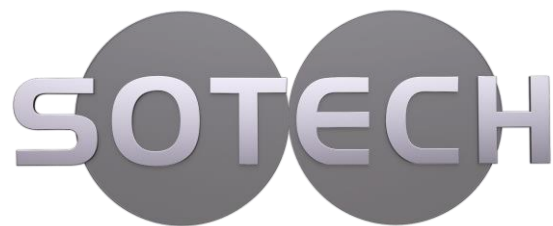

Some 4,500 'Waffle Box' units have been manufactured as bespoke fabrications for the brand new £30 million centre:mk shopping complex multi-storey car park in Milton Keynes.

There were five shades of blue colours with two gloss variations giving a total of 10 colours to the façade. These were selected to give a subtle faded effect to the car park creating a strong architectural statement. The car park provides a layered and dynamic façade which relates to the ordered architecture of the adjacent Grade II listed shopping centre.

Packed full of the latest technology and bringing over 1,400 new spaces to the city centre, the brand-new, multi-storey 'smart tech' car park is situated behind the shopping centre's flagship store, John Lewis & Partners.
