## WELCOME

**In today's ever-evolving construction landscape, staying ahead of industry regulations and advancements is paramount.**

With the recent implementation of the Building Safety Act and the emphasis on joint competency initiatives, ensuring that professionals in the construction industry are adequately trained is more crucial than ever.

At MCRMA, we are dedicated to fostering excellence and keeping our members abreast of industry developments. Our comprehensive three-day training course is designed as an introductory level to equip participants with the theoretical knowledge and practical skills necessary to further develop their experience and excel in their roles.

Covering vital areas such as thermal performance, acoustics, fire performance, and health and safety practices, our course provides a holistic approach to training.

Moreover, we understand the importance of flexibility in professional development. That's why we offer a range of online CPD-accredited courses to accommodate diverse learning needs.

By participating in MCRMA's training initiatives, you not only enhance your own competency but also contribute to the overall advancement and reputation of the metal cladding and roofing sector.

I encourage all members and their employees to seize the opportunity to invest in their professional growth through our training programs.

*Together, let's ensure that our industry remains at the forefront of excellence and safety.*

CARLTON JONES – DIRECTOR

## ABOUT THE MCRMA

---

**The Metal Cladding and Roofing Manufacturers Association (MCRMA) represents the leading manufacturers of metal roof and wall cladding systems.**

Founded in 1990, the MCRMA has grown to include component manufacturers, stockholders, systems installers, independent inspectors, and industry support services.

The association is dedicated to advancing best practices, safety standards, and innovative solutions within the metal building envelope sector. MCRMA members are involved in prestigious projects, providing sustainable and cost-effective solutions.

The association also offers extensive training programs and publishes guidance documents to support industry professionals in their ongoing development.

## OUR COURSE AND FEES

### Course Details:

This course covers building physics, design theory, and practical installation on roof and wall rigs.

It is designed for new starters from MCRMA member companies, offering foundational knowledge in theory, technology, and terminology.

Students gain hands-on experience with components, learning their interfaces and practical installation.

The course aims to equip office-based employees with a basic understanding to communicate effectively with specifiers.

***It is not suitable for those with roofing and cladding experience or those seeking full NVQ status.***

### Course Length

3 Days

All course material is shared in person, face-to-face.

### Where

SPV Group head office in Walsall, West Midlands.

### Course Fees

£650 + VAT

*MCRMA Members*

£1000 + VAT

*Non-Members*

The above pricing is for the three-day course per delegate. Please refer to our T&C doc provided by the MCRMA.

### Book a Place

Please contact [info@mcrma.co.uk](mailto:info@mcrma.co.uk) to discuss next available course dates.

This course is in demand and we have a maximum of 8 people on each date to ensure the right level of involvement.

## COURSE OVERVIEW

Delegates **must** supply hi-viz jacket, safety boots, safety glasses, hard hat and hearing protection.  
A full breakdown of the agenda can be provided on request.

### Day One

- Building Process
- Steel Structure
- Cladding Systems & Components
- Building Performance
- Review

### Day Two

- Working at Height
- Class Discussion
- Risk Assessments
- Drawing of Rigs
- Practical Setting Up of Tools
- Measuring Equipment
- Roofing & Cladding Installation

### Day Three

- Continuation of Roofing and Cladding Installation from the previous afternoon.

## FURTHER INFORMATION

---

### Course Venue

#### **SPV Group**

Westgate, Aldridge  
Walsall, West Midlands  
WS9 8EX  
Tel: 01922 749 511

A map showing the location of SPV Walsall Head Office is available at [Contact Us - SPV Training](#)

### Timing

**10:00 - 16:30**

Please report to main reception where you will be collected by your instructor at 10.00 am on the Tuesday. Parking is available on site and close to the reception area. The course will finish at 16.30 hours on the Thursday.

### Accommodation Options

Hotel accommodation is the responsibility of the individual delegate.

There are several hotels in the vicinity that we recommend for the duration of your training.

#### **Fairlawns Hotel**

2 mins drive from office. Good parking.

#### **Travelodge**

8 mins drive from office.

#### **Holiday Inn, Chapel Lane**

10 mins drive from office.

## FURTHER INFORMATION

---

### Clothes & PPE

There are a number of practical activities on the course so please wear suitable clothing, e.g., jeans, sweat shirt.

**Operatives must supply hi-viz jacket, safety boots, safety glasses, gloves, hard hat and hearing protection.**

These items should be available from your company.

*You will be charged if we have to supply them on the day*

---

### Housekeeping

Mobile phones are to be switched off during class.

### Catering

Teas & coffees are provided in the morning and afternoon.

A small lunch buffet is provided for each day of the course. Please let [info@mcrma.co.uk](mailto:info@mcrma.co.uk) know your dietary requirements ahead of the course.

If you would prefer, a microwave is available on site as well as a local cafe and Tesco Express.

## TESTIMONIALS

Quality training course covering a wide range of metal roofing and cladding topics

---

We have great feedback from our employees who attend, so thank you for providing such insightful training

---

Fantastic course. Highly recommend

---

Hands-on vs online...no comparison.

---

I remember doing this course a few years ago. I got to learn a lot and get my hands dirty. Happy days!

# THANK YOU

**We look forward to providing training to your team in the future.**
